

# *ORISE Update Presentation*

Presented by: Rac Cox - Director of FTD  
Eddy Whitson - Manager FMS  
June 8, 2005

The **Oak Ridge Institute for Science and Education (ORISE)** is a U.S. Department of Energy facility focusing on scientific initiatives to research health risks from occupational hazards, assess environmental cleanup, respond to radiation medical emergencies, support national security and emergency preparedness, and educate the next generation of scientists.

The ORAU contract end date to manage ORISE is being extended from June 30, 2005 to September 30, 2005 plus 3 one-month options. The RFP was expected out by December 1, 2004. Hopefully to be issued anytime now.

# *ORISE Summary*

## **Consolidation Goals by FY 2008 - Unchanged**

- Consolidate all laboratory operations at the South Campus (April 2006)
- Reduce ORISE footprint from 230,945 gsf to 95,741 and average age of facilities from 52 years to 42 years.
- ORAU provides 126,515 gsf of office space (complete)
- Clean-up and demolish two remaining surplus contaminated facilities by September 2006
